

# An Appeal to the Los Altos Hills Town Council

We, the undersigned, appeal to the LAH Town Council to preserve and protect the **Town Riding Ring** as a unique asset that supports the rural character of our community.

We ask Council Members to defend the Town Ring against any and all interests in development of this Open Space land.

This ring is the *only* public riding facility where los altos hills and surrounding community horsemen can meet and recreate without membership requirements.

The potential usage of this facility extends beyond equestrian interests and could be utilized by many other community groups for a variety of activities.

We appreciate your consideration  
and look forward to your support.
